

# VICSAIL

## C&C 30 performance yacht "Whisper"

Fast performance with great handling, this is a rocket ship that you can actually control. Yachting world gave the C&C 30 a great review as a highly competitive boat in its class. If you are looking for high performance racing in a more manageable package you couldn't go past 'Whisper'. Recent build, composite construction, nearly new suite of North sails (2017) and a carbon mast make this little racer an excellent buy. Now just get out there and thrash someone!

### General Specs
