Volare means 'to fly' – and certainly this beautiful Riva has the look and the design to do just that. A boat "of its time". This has a real feel of James Bond 007. From the stylish sun decks to the period "ashtrays" on the salon table. Riva are an Italian marque, known for smaller day boats. In Volare, we have a luxurious 2 x master suite style boat with additional bunk cabin and even space for a crew via the foredeck hatch. The beautiful wood burl finished timber, the generous storage and the efficient galley are also reasons to make this boat your own. Powered by 1000HP MTU Diesels with just 750 hours each. Gen set is new. A stylish slice of the last century, all up to date and exceptionally well-priced. A visit is highly recommended!
